

Quick Release Billet Hub Adapter Kit

The 'quick grip and rip' system on this new billet hub adapter kit allows you to remove your wheel and hub assembly quickly to get in and out of your vehicle.

Not only does this quick release hub get you in and out with ease, it also doubles as a theft deterrent, allowing you to take the steering wheel with, rendering the vehicle inoperable.

This versatile hub fits steering wheels with a 3 or 6 bolt pattern, and will bolt right up to ANY Livorsi wheel offering, such as Momo, Isotta, and many other brands as well.

- ¾ inch stainless steel shaft welds onto steering column
- Hub is machined from billet aluminum
- Large diameter surface allows for easy removal
- Big hand and gloved-hand friendly
- Aluminum polished finish
- 10-32 thread pitch hardware included
- Fits ALL Livorsi wheels
