

# Trim Pad (All-In-One)

Trim Pad w/LED  
Indication

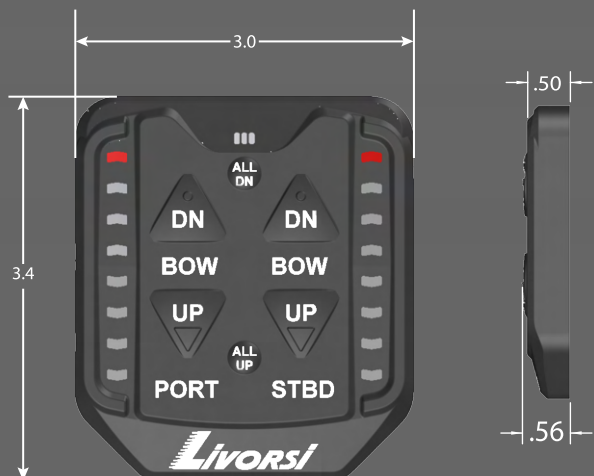

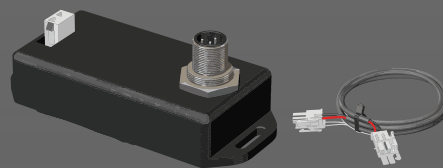

Trim Pad w/o LED  
Indication

May be used for other functions  
such as drives, jack plate etc.

- Compact, waterproof, 'All In One' design. All needed components are captured in the pad itself.
- One touch of the All Up/All Down buttons fully raises or lowers tabs and actuators.
- Auto Retract feature raises actuators to their home/stowed position once the ignition key is turned off
- Compatible with most tabs and actuators, regardless of brand (Hydraulic / Electric)
- LED movement based on user adjustable timing (4-12 seconds). No sensors needed.
- Light sensor automatically dims/brightens in darkness and sunlight
- Available with/without LED indication
- Compatible with 12V and 24V systems.
- Dual station trim pads available.

## Optional NMEA2000 Gateway

Part #	Description
LTPLEDBK	Trim Pad w/ LED
LTPBK	Trim Pad w/o LED
LTCN2KB	NMEA2000 Box
Part #	Harnesses
LTCOWH-2251	Main Control Wire Harness
LTCPWH-2	Power Wire Harness
LTCDSWH + Length	Dual Station Wire Harness
LTCCCNWH	Dual Station NMEA2000 Harness
