

Livorsi 1025 Trim Tab (Designed for Triples & Quads)

- Frees up to 6" of transom space for triples & quads, helps prevent **Dry-Out** conditions
- Moving tabs outward 3" on each side allows **maximum** water cooling & **minimum** prop aeration
- Allows greater motor separation for improved propeller bite during docking
- 2 versions to choose from 10" & 12" transom plates

- Tabs are hard anodized T6061 billet aluminum & protected by 5 anodes for complete Saltwater Protection.
- Standard equipment in Contender, Yellowfin, Blackwater, Deep Impact, Intrepid, Fountain, Donzi, Renegade, SeaVee, Military and many others.

Allow Tabs to be Mounted Outward 3" on Each Side
Benefits Include: **Maximizing** Water Cooling & **Minimizing** Prop Aeration
